I recommend reading Huber (2025) and the literature cited therein.

In Figure 1 you see a large logo and in Figure 2 you see a smaller on. I included them with different code. Both work with this template using the apaquarto extension. In other setups maybe only the apporoach used in Figure 2 works. In Table 1 you see a table. A graphical visualization made with R is shown in Figure 3.

Note. Nothing to note.

Figure 2

The smaller version of the logo of the Fresenius University of Applied Science

Note: Here you can write a note.
